ABOUT ME

- As a Frontend web developer/software developer, I have worked on personal projects over the past few months. I am experienced in designing, developing, and maintaining websites and web applications using various technologies, including HTML, CSS, JavaScript, and various web development frameworks. I am a conscientious person who works hard and pays attention to detail. I'm flexible, quick to pick up new skills, and eager to learn from others. I also have lots of ideas and enthusiasm. I'm keen to work for a company with a great reputation and high profile like your company. As a high energy personable and reliable professional, I possess the skills necessary to meet expectations.

WORK EXPERIENCE

- **GPT-3 MODERN UI/UX FRONTEND WEBSITE | MAR 2023 - APR 2023**
  This Front-end modern UI/UX responsive website project is built using ReactJS, JavaScript, HTML, and CSS from a Figma design. Implemented user interface components using ReactJS, HTML, CSS, and JavaScript. Conducted cross-browser testing to make sure it's compatible with other browsers and maintained its responsiveness
